- Work on specific topics addressed under the Convention on Biological Diversity, such as international public and private biodiversity financing, including through innovative financial instruments.
- Work on access to genetic resources and the fair and equitable sharing of benefits arising from their utilisation (ABS), including work at global level under the Convention on Biological Diversity and the Nagoya Protocol, as well as work at EU level, notably the implementation and upcoming evaluation of the EU ABS Regulation;

The expert will be involved in the drafting of briefing material and will frequently interact with other Services in the European Commission, EU Member States and external stakeholders.
