#### **Entity Presentation (We are)**

Unit H.2 is responsible for auditing expenditure related to market measures and rural development. This expenditure is managed and controlled by the Member States and amounts to approximately €10 billion per year. Our objective is to provide the Commission with reasonable assurance that expenditure declared by the paying agencies was incurred in accordance with EU rules. To this end, we carry out conformity enquiries in the form of audit missions relating to the Member States' management and control systems. Our tasks also include promoting effective control systems, assisting Member States in the correct implementation of measures falling within the Unit's remit, using the audits of other organisations such as the European Court of Auditors, and providing general support to the Directorate-General in all matters related to audit.

#### Job Presentation (We propose)

We are looking for an experienced colleague to join our Rural Development team for measures outside the integrated administration and control system. The work consists in preparing and carrying out audits in the Member States in order to evaluate their management and control systems. The role involves carrying out on-site missions and drafting the related audit reports, analysing reports drafted by national certification bodies, organising bilateral meetings with Member State authorities, and following up enquiries as part of the clearance of accounts procedure. There are, on average, four audit missions per year in the Member States. In general, they take one week.

The role also requires participation in meetings with other institutions concerning auditrelated issues, as well as providing general support and advice to DG AGRI management.

# Jobholder Profile (We look for)

Candidates must have completed university studies related to the role (for example in audit, economics, law, agriculture, management) attested by a diploma. The role requires excellent analysis skills, good task organisation skills, the ability to quickly and easily draft documents in English, to conduct audit missions together with one other colleague, and to be comfortable speaking in public, usually in English. Knowledge of the Common Agricultural Policy and/or other EU shared management or comparable policies would be an advantage.

The job requires good organisation skills and an excellent team spirit, but also the ability to work independently.

Candidates must be able to carry out system audits and to ensure detailed follow-up of the findings. Candidates must also be able to defend their point of view in meetings with the Member States and with other institutions and authorities. Experience in the area of audit

or similar is preferable. Knowledge of the CAP and rural development policy would be an advantage.

Very good English communication and drafting skills. Knowledge of other EU languages, especially French, would be an advantage.
