Entity Presentation (We are)

Directorate D's main objective is to foster growth and stability in third countries and thereby contribute to economic prosperity and stability in the EU. This is a multidimensional objective that can be reached by working in parallel on several topical and stimulating fronts, including:

- Promoting EU policies in the international context.

- Projecting the values and principles of the EU's economic and financial framework and policy recommendations by helping to shape the EU's external economic policies and promote their implementation.
- Incorporating relevant global economic developments into the Commission's internal economic analysis and policies.

D3 is the unit responsible for preparing the Commission's position and participation in the main international economic and financial institutions and fora, notably the G7, G20 and the IMF. We analyse and provide policy advice on horizontal international economic matters (for example, global economic imbalances, international capital flows, international debt architecture, international financial architecture). We also prepare the participation of Commission representatives in the G7 and G20 Finance Working Groups, Ministerial meetings and Summits. We promote EU policy approaches in the international multilateral context and work on strengthening the external economic representation of the euro area and the EU – all high-visibility activities.

We are a motivated, young dynamic and friendly team focused on international economics and governance.
